PROJECTS & PROFESSIONAL ACTIVITIES

Projects are grouped in the same three professional categories used in the original portfolio structure.

Headquarters & Provincial Projects

1. Supervision of the first and second phases of major and complementary repairs of the Peace Building of the Iranian Red Crescent Society with Vira Sazeh Azarestan.
2. Supervision of the repair project of the Health, Treatment and Rehabilitation Deputy building with Karno Kavan Pars.
3. Supervision of commissioning the fire alarm system of the Health, Treatment and Rehabilitation Deputy building with Radan Pedram Shahr.
4. Supervision of equipping and completing the amphitheater hall and related facilities of the Health, Treatment and Rehabilitation Deputy building with Pouya Talash Jonoub.
5. Supervision of purchase, installation and commissioning of 5 elevators for the Peace Building with Atis Vista.
6. Supervision of purchase, installation and commissioning of 4 elevators for the Health, Treatment and Rehabilitation Deputy building with Saba Asanbaran Arad.
7. Technical visits to headquarters, relief and medical buildings in Yazd, West Azerbaijan and Ilam provinces.
8. Supervision of construction of the Iranian Red Crescent Urmia headquarters building in West Azerbaijan province with Momas Urmia.

Electrical Design & Estimation

1. Design and estimation of the sub-acute hospital of the Health, Treatment and Rehabilitation Deputy building of the Iranian Red Crescent Society.
2. Design and estimation of the physiotherapy center, neurotherapy center and reference laboratory for technical evaluation of orthotic and prosthetic components of the Health, Treatment and Rehabilitation Deputy building.
3. Design and estimation of the Peace Observatory café-restaurant of the Iranian Red Crescent Society.
4. Estimation for commissioning fire alarm systems in relief warehouses nationwide.

Consulting & Supervision for Procurement and Construction

1. Consulting, estimation and budget allocation for construction of solar power plants for Mazandaran, East Azerbaijan, Kohgiluyeh and Boyer-Ahmad, South Khorasan, Zanjan, Ardabil, Qazvin and Kerman provinces.
2. Consulting, estimation and budget allocation for purchase of diesel generators and UPS systems for Razavi Khorasan, Hormozgan, Zanjan and Golestan provinces.
3. Meetings with SATBA, Iran Energy Exchange, Tehran Province Electricity Distribution Company and Agah Brokerage for electricity procurement from the Energy Exchange for Iranian Red Crescent Society buildings nationwide, in accordance with the government renewable-energy supply resolution.
4. Technical site visit and execution options for supplying the electrical infrastructure of the pharmaceutical-equipment warehouse of Soha Helal Company at the Relief and Rescue Organization of the Iranian Red Crescent Society.
5. Commissioning the emergency power system of the Red Crescent observatory and data center.
6. Site visit and consulting for replacement of diesel generators at the Peace Building of the Iranian Red Crescent Society.
7. Site visit and consulting for purchase of a diesel generator for Navid Helicopter Services Company.
8. Technical visit to Atis Vista factory for selecting elevator cabins for the Peace Building.
